Radwa Mohammed Fahmy

Data Scientist

+201024144901 || Assiut, Egypt
radwamohammed026@gmail.com || linkedin.com/in/radwa-mohammed || radwamohammed11.github.io/RadwaPortfolio1/

Profile

- Data Scientist and Artificial Intelligence engineer with hands-on experience in machine learning, data analysis, object-oriented programming (OOP), web development, and software project management. Skilled in Python, SQL, HTML/CSS, JavaScript, and software design principles. Demonstrates strong initiative, innovation, and strategic planning in developing practical algorithms, building interactive applications, and managing project lifecycles. Currently expanding technical skills in Machine Learning and Data Science through professional training, practical projects, and active leadership roles.

Education

- **2024 – 2028** | Badr University in Assiut (BUA), Bachelor of Artificial Intelligence and Data Management

Work Experience

Digital Egypt Pioneers Initiative (DEPI) **JUL 2026 – Present**

Data Science Trainee

- Completed 100+ hours of hands-on technical coursework, increasing predictive model accuracy by 15% across assignments.
- Analyzed 5+ datasets to extract actionable business insights and generate automated statistical report summaries.
- Engineered 20+ feature pipeline parameters using Python and SQL to optimize data preparation and model evaluation speeds.

Projects

Personal Web Portfolio | HTML, CSS & JavaScript

- Deployed a responsive web portfolio using HTML, CSS, and JavaScript, achieving 100% cross-device compatibility and optimized layout performance.

Predictive Machine Learning Model | Python & Scikit-Learn

- Developed supervised ML models in Python, implementing feature engineering, tuning, and performance evaluation metrics to optimize predictive accuracy.

Exploratory Data Analysis Pipeline | Pandas, NumPy & Seaborn

- Executed data preprocessing, raw data cleaning, outlier detection, and statistical analysis to extract actionable visual insights.

Unsupervised Pattern Recognition Model | Clustering Algorithms

- Built and trained unsupervised machine learning algorithms for dataset clustering, dimensionality reduction, and pattern recognition.

OOP Software Application | Java

- Designed an application applying encapsulation and inheritance principles, reducing code complexity by 25% and ensuring scalable software design.

Programming Training for Kids | Volunteer Instructor

- Instructed 30+ students in fundamental logic and programming concepts, conducting 10+ interactive workshops.

Activities

Vice President | Hult Prize BUA **Nov 2024, Present**

- Directed 10+ public relations campaigns and strategic operations, driving participation for 200+ university students.

Vice Head HR | IEEE BUA Student Branch **Sep 2025, Present**

- Managed onboarding and HR processes for 15+ committee members, boosting team retention and performance by 30%.

Vice Head HR | TEDx BUA **Jan 2026, Present**

- Managed recruitment, member evaluation, and team allocation across event committees.

Operations Member | Rally BUA SB **Aug 2026, Present**

- Coordinated event logistics, venue setup, and ground operations for campus initiatives.

Skills

- Data Analysis & Cleaning (Python, Pandas, NumPy, SQL)
- Machine Learning & Predictive Analytics (Supervised & Unsupervised Models)
- Programming Languages (Python, SQL, C++, Java, JavaScript)
- Developer Tools & Software (Git, GitHub, Google Colab, Adobe Photoshop)
- Team Leadership & HR Operations, Strategic Planning & Communication, Problem-Solving & Collaboration

Languages

Arabic – Native · English – C1 (Advanced) · German – B1
